Live in Tbilisi, Georgia

## **Summary**

I'm a dedicated front-end developer who builds dynamic, responsive, and user-friendly web applications. I focus on creating solutions that work smoothly across devices and browsers while keeping performance high and code clean and easy to maintain. I also have experience working with backend components and developing complete full-stack applications.

## **Skills**

Html, Css/Scss/Tailwind css, JavaScript, TypeScript, React, NextJs, Redux, Postgresql, NestJs, Git

## **Experience**

### **Front-end Engineer — LTD Gegmio**

**July, 2025 — Present**

As a Frontend Engineer, I work on a business CRM system, developing and maintaining client-side features that support daily business operations. I collaborate closely with backend engineers to integrate services and with UI/UX designers to ensure a clear, efficient, and user-friendly experience, helping make business processes easier to manage.

Stack: React ts, Css/Tailwind css, Shadcn UI, Redux, Axios, webSocket/SignalR,

### **Trainee — ITransition**

**March, 2025 — May, 2025**

As a trainee Itransition provided hands-on experience in full-stack web development. It taught both client-side development with JavaScript and Typescript and server-side development with Node. js. I completed a full-stack project using React with TypeScript, Tailwind CSS, NestJS and PostgreSQL during the internship.

Stack: JavaScript, TypeScript, NodeJs, ExpressJs, NestJs, React, Php, postgresql, mysql, Git
